APA 2: THE ORIGINAL

THE CORE PIECE OF EVERY BANDSAW

The standard version is suitable for all bandsaws:

- Selected materials, optimized hardening process and narrow manufacturing tolerance guarantee for this technically superior product
- Hardened side and back rollers hold the saw blade in the right position
- Hardened running treads ensure a long-lasting performance and can be replaced if necessary
- User-friendly fine adjustment, standard permanent lubrication, minimal maintenance, stable construction
- Smooth and wear-free saw blade guiding
- Highest precision and long operating life of the bandsaw blade
- Mounting parts included
- **OPTIONAL:** On request, the APA2 bandsaw blade guide can be supplied with Size 2 **ball-bearing mounted back roller** (e.g. for the cutting of non-ferrous metals)
